

GlobeMed

Developing 21st Century Leaders for Global Health

Title: 2017 - 2018 Partnerships Fellow(s)

Reports To: Director of Partnerships

Location: Evanston, IL (near the campus of Northwestern University)

WHO WE ARE

GlobeMed envisions a world in which every human has the opportunity to live a healthy life. To act on this vision, GlobeMed advances the movement for global health equity by empowering students and communities to work together to improve the health of people living in poverty.

GlobeMed was founded ten years ago by a group of students who sought to challenge the status quo. Frustrated by the global engagement options offered on their campuses, they created a new model to partner with grassroots leaders who are already working to unleash the potential of their own communities. In the past decade GlobeMed students have invested nearly \$3 million in local health initiatives across 19 countries while challenging mainstream perceptions of young people's capabilities.

Today, GlobeMed harnesses the passion and curiosity of university students by engaging them in a transformative learning process to build the confidence, courage and long-term commitment needed to become leaders for health equity. GlobeMed maintains 59 university chapters, each of which partners with one grassroots partner in Africa, Asia and the Americas. These partnerships take learning into the communities around the world to help undergraduate students develop essential skills and perspectives needed to advance the movement for global health equity.

GlobeMed's core programs create a community of peers deeply ensconced in the conversation surrounding health equity and social justice. These programs include:

- **globalhealthU:** Signature global health and leadership curriculum
- **Leadership Institute:** Annual training event for chapter leadership
- **Summit:** Annual network-wide global health conference
- **Grassroots On-Site Work (GROW):** International internship program
- **GROW Institute:** Comprehensive in-person pre-departure training for GROW
- **Partner Forum:** Regional gathering of grassroots partners

OUR VALUES

GlobeMed's Global Headquarters team members are committed to building a world where every person has the opportunity to thrive no matter where they are born. We believe that advancing global health equity requires an on-going commitment to anti-oppression, inclusion, racial equity, and social justice. We seek to embody the 21st century leadership practices that inform our organizational programs and culture:

1. **Dig deep:** To cultivate wisdom, we approach ourselves, our communities, and the world with openness and curiosity.
2. **See possibility:** In all people and situations, we see the ability to learn, connect, and contribute to positive change.
3. **Grow together:** We accompany each other, cultivating an inclusive global community that inspires, challenges, and sustains us.
4. **Be brave:** We put mission in front of ego and fear, doing what it takes to make the change the world needs.
5. **Follow through:** We keep our promises and act with the highest levels of integrity and accountability.
6. **Stay authentic:** We let ourselves be known, remaining grounded and humble even as we aim for the boldest vision.

POSITION DESCRIPTION

Partnerships Fellows will be integral members of GlobeMed's partnerships team, gaining insight into the partnerships structure and management of all 59 partnerships between chapters and grassroots organizations. They will work closely with the Director of Partnerships to manage student training, grassroots organization engagement, and GROW (grassroots on-site work) internships.

RESPONSIBILITIES

- **GROW (Grassroots On-site Work) Internship Advising (30%)**
 - Work with Director of Partnerships to train students to critically analyze the health of their partnerships
 - Advise internship coordinators in logistics of managing the GROW internship
 - Support GROW team in logistics of internships
 - Support students in applications for GROW internship grants and work with the partnerships team to select grantees
- **Partnership Strategy and Systems (50%)**
 - Analyze data from grassroots partner organizations and conduct research to support comprehensive partner support strategies
 - Streamline partnerships-related operations to improve efficiency
 - Analyze and tell the story of collective partner impact for GlobeMed
 - Additional duties as assigned
- **Pre-Departure Event Support (20%)**
 - Work with partnerships team to develop comprehensive content for in-person training during GROW Institute for interns (Feb 2018)
 - Support partnerships and operations team in logistics of hosting GROW Institute

EXPECTATIONS

- Full school year commitment (October 2017 - June 2018)
- Minimum of 12 hours spent at GlobeMed Global Headquarters office per week
- Proficient with Excel and Google Apps (Gmail, Drive, Calendar)
- Self-starting and independent with high attention to detail, able to carry out projects independently especially when staff is traveling
- Excellent communication skills, written and verbal
- Commitment to social justice
- Commitment to diversity and inclusion practices

DESIRED QUALIFICATIONS

- Fluency in Spanish
- Experience with Salesforce is a plus
- Goal-oriented, logical thinker, problem solver
- Bold and forward-thinking mentality

BENEFITS

- Engagement in a strong community of passionate change-makers
- Experience with non-profit operations and management

HOW TO APPLY

If you have some or a majority of these skills, please send your resume and cover letter to jobs@globemed.org Please include "Partnerships Fellow – Your Full Name" in the subject line. Priority applications will be accepted through August 14, 2017 and regular applications will be accepted through August 25, 2017. Interviews will be offered on a rolling basis until the position is filled. No phone calls, please.

GlobeMed provides equal employment opportunities to all employees and applicants for employment without regard to race, color, religion, sex, gender, sexual orientation, national origin, age, disability or genetics. As an equal opportunity employer committed to inclusive hiring practices, we encourage applicants of backgrounds and skill sets that are underrepresented in global health.
